**Name:**

Radhika Mishra

Age:

42

Occupation:

Physics Professor

Picture:

Description or quote:

- She is currently a professor at Dept. of Physics at Aditya Engineering College, Visakhapatnam, A.P.
- She graduated with a PhD in molecular physics from Andhra Engineering College.
- She has been in the field of teaching physics to UG and Master students for the past 12 years.

Goals:

- To take classes and conduct exams hassle free.
- To make students aware of research opportunities going on in her field of study easily.

Frustrations (Pain Points) :

- She finds it very tedious to conduct exams in various platforms.
- She find its time consuming to keep track of studetnts' grades of exams conducted on various examination portals.

Needs and Expectations :

- She wants a single platform on which she could conduct exams easily and also keep track of students' grades.
- She wants a communication portal through which she could broadcast any upcoming research opportunities on campus to all students so that interested students could contribute.

Name:

Venkatesh Iyer

Age:

19

Occupation:

Student

Picture:

Description or quote:

- He just graduated from his high school this year, he is currently a freshman pursuing his Btech in computer science at VIT.
- Due to COVID-19 he is pursuing his 1st semester in online mode.

Goals:

- To be able to perform and manage tasks such as exams, classes, homework submissions on a single platform.
- To make his online college experience less cumbersome.

Frustration (Pain Points) :

- Different courses take quizzes/homework submissions on different platforms.
- It is a tedious task to use different apps for different purposes .
- Classes links are often changed and he struggles to find the new links.

Needs and Expectation :

- A multipurpose app that combines all features like online classes, exams, homework submissions in one place.
- To have a platform for resolving any academic queries as fast as possible.
